Change Type:	☒ **Major** ☐ Medium ☐ Minor
Chargeable:	☒ Yes ☐ No

Brief Description of Changes:

Changes required in: ○ **Program** ○ **Database**

Scope Of Work :

1. Currently JSBL is using its own SMS mechanism. The same mechanism will be used by them and SMS will not be send by Remit application.
2. SMS incorporation will be dependent on JSBL provided information like database, DSN, table format etc.
3. As per requested by JSBL what Remit application will do is that it will insert SMS call in JSBL provided database' table.
4. SMS incorporation will be done on status(es) and transaction mode.
5. For all the status(es) and transaction mode(s) for which entry is made remit application will call the JSBL provided table through JSBL provided DSN and if available then will insert the data in that particular table.
6. Remit application job will be enter/insert data in JSBL provided table and will also retain that transaction/record in remit application so that user can re-send the data from newly developed interface.
7. In-case if table is not accessible then such transaction will be inserted in a new table at remit application. These transactions will be available at a newly developed interface and user will have the facility to re-send/insert them from there in JSBL table.
8. SMS messages against statuses and mode of transaction will be configurable as user may change these messages in future.
9. Data asked to be inserted in JSBL table will be according to the information provided requirement specification document.
    - ID — Unique Reference Number
    - Cell — Beneficiary Mobile Number
    - Message — Customized message against status and mode.
    - Entry Date — Insertion date
    - FLAG — N - Fixed
    - Transaction Nature — C – Fixed
    - Transaction Type — Mode of transaction
    - Channel — RH

Any change in that data will be taken as new/change in requirement.

10. JSBL provided report and its format.

- S.NO
- Mobile Number
- Message Contents
- Sender
- Mode
- Remitter Name
- Bene Name
- URN
- Amount
- Branch

Any report/inquiry requirement other than above will be taken as new/change in requirement.

Time & Fee Estimates:

- **Total Fee in PKR : ~~380000~~**
- **Discounted Fee : 350000**

The mode of payment will be as per below:

Sr.#	Schedule	Percentage%
01	On signing of Change Request	50%
02	On completion of UAT	50%
